INVITATION FOR BIDS

Public notice is hereby given that pursuant to a resolution adopted by the City Council, the City of Lake Charles, Louisiana, does hereby advertise for sealed construction bids and will open same on:

Tuesday, the 2nd of November, 2010.

Bids are to be received at www.bidsync.com or by mail or hand delivered at the office of the Clerk of the Council of the City of Lake Charles, Louisiana, located on the 4th Floor of City Hall at 326 Pujo Street, Lake Charles, Louisiana, 70601, no later than 2:45 p.m., Local time. Bids received after the 2:45 p.m. deadline will be returned to the bidder unopened. At 3:00 p.m. on the date of bid opening, the bids will be publicly opened and read aloud in the City Council Chambers, located on the 1st Floor of City Hall at 326 Pujo Street, Lake Charles, Louisiana 70601.

For the following work:

Project No. 2010-589
Bond Issue No. SW0010
East Prien Lake Road Sewer Line Extension
East from the Juvenile Detention Center
Approximately Mile
City of Lake Charles, LA.

Contract Documents, including Drawings and Technical Specifications, are on file at the office of D.W. Jessen & Associates, L.L.C. at 440 Kirby Street, Lake Charles, Louisiana.

Copies of the Contract Documents may be obtained by depositing Forty Dollars ($40.00) for each set of documents so obtained. Deposits on the first set of documents furnished bona fide prime bidders will be fully refunded upon return of the documents no later than ten days after receipt of bids. On any other sets of documents furnished to bidders, one-half ($20.00) of such deposit will be refunded if the Contract Documents are returned in good condition within ten (10) days after Bid opening.

A certified check or cashier's check, payable to the order of the City of Lake Charles; or a satisfactory bid bond executed by the Bidder and an acceptable Surety, in an amount equal to five percent (5%) of the Total Bid, shall be submitted with each bid.

The City of Lake Charles reserves the right to reject any or all bids or to waive any informalities in the bidding.

Bids may be held by the City of Lake Charles for a period not to exceed forty five (45) days from the date of the opening of bids for the purpose of reviewing the bids and investigating the qualifications of Bidders, prior to awarding the Contract.

Performance and Payment Bonds for the construction are required upon execution of the Contract equal to one hundred percent (100%) of said Contract.

Attention is called to the fact that the Contractor must ensure that employees and applicants for employment are not discriminated against because of their race, color, religion, sex, national origin, age or disability.

Bidders who submit bids on this project will comply with Chapter 24 of Title 37 of Louisiana Revised Statutes (R.S. 37:2150-2164 as amended).

The Contractor shall be paid in cash on estimates, all in accordance with the Specifications.

SPECIAL MEETING
AGENDA FOR SPECIAL MEETING OF OCTOBER 7, 2010 TO BE TAKEN UP IN ACCORDANCE WITH RESOLUTION NO. 150-97 FOR MEETING OF THE CITY COUNCIL OF LAKE CHARLES LA

Present: Mark Eckard, John Ieyoub, Rodney Geyen, Dana Carl Jackson, Marshall Simien and Stuart Weatherford

Absent: Luvertha August

CALL TO ORDER - Rodney Geyen

INVOCATION - Mayor Randy Roach

PLEDGE - Tore Carlberg

ROLL CALL

Present: Mark Eckard, John Ieyoub, Rodney Geyen, Dana Carl Jackson, Marshall Simien and Stuart Weatherford

Absent: Luvertha August

Also present were Mayor Randy Roach, Mr. Billy E. Loftin, Jr., City Attorney and Lynn F. Thibodeaux, Clerk of the Council.

Mayor Roach stated the purpose of the meeting was to give citizens the opportunity to see the presentation for the development proposed by Lake Charles Mardi Gras Boardwalk, LLC. The Mayor recognized the Downtown Development Authority members present and called on Billy Loftin, Jr. who described the Request for Proposal process.

Mr. Loftin stated a public hearing will be held at the October 20th City Council meeting where the City Council will vote on the item introduced at the October 6th City Council meeting regarding an option agreement with Lake Charles Mardi Gras Boardwalk, LLC. Mr. Loftin then introduced Lamar Berry, representing Lake Charles Mardi Gras Boardwalk Group who gave the presentation. Mr. Berry introduced his team members, Chris Stant, Franklin Kyle, engineer, Johnny Neumeyer, lead developer, and Gary Dixon, marketing.

Citizens who spoke regarding the presentation were Ron Williams, Grey Stream, Nathan Curtis and Jonathan Johnson.

ADJOURN

A motion was made to adjourn. The motion carried unanimously.

SPECIAL MEETING NOTICE
AGENDA FOR SPECIAL MEETING OF OCTOBER 7, 2010 TO BE TAKEN UP IN ACCORDANCE WITH RESOLUTION NO. 150-97 FOR MEETING OF THE CITY COUNCIL OF LAKE CHARLES, LA

PURPOSE OF THE MEETING

The City Council will hold a Special Meeting to hear a presentation made by Lake Charles Mardi Gras Boardwalk, LLC regarding their proposal submitted in response to the lakefront Request for Proposals for Tract One-D and Tract Two.

This notice, which is made a part of these minutes, was posted on the bulletin board at the entrance of Lake Charles City Hall on October 5, at 1:45p.m. Copies of the notice were distributed to the Council members as directed in Resolution No. 150-97.

S/Lynn F. Thibodeaux
Clerk of the Council

STATE OF LOUISIANA
PARISH OF CALCASIEU:

I, LYNN F. THIBODEAUX, do hereby certify that I am the duly qualified and acting Clerk of the Council of the City of Lake Charles, Calcasieu Parish, Louisiana.

I further certify that the above and foregoing constitutes a true and correct copy of the Minutes of a special meeting of the City Council of said City, held on the 7th day of October, 2010.

WITNESS WHEREOF, I have hereunto subscribed my official signature and impressed hereon the official seal of said City, this 17th day of October, 2010.

Pursuant to section 1006 of the Oil Pollution Act ("OPA"), 33 U.S.C. §§ 2701, et seq., federal and state trustees for natural resources are authorized to (1) assess natural resource injuries resulting from a discharge of oil or the substantial threat of a discharge and response activities, and (2) develop and implement a plan for restoration of such injured resources. The federal trustees are designated pursuant to the National Contingency Plan, 40 C.F.R. Section 300.600 and Executive Order 12777. State trustees are designated by the Governors of each state pursuant to the National Contingency Plan, 40 C.F.R. Section 300.605. The following agencies are designated natural resources trustees under OPA and are currently acting as trustees for this Incident(s): the United States Department of the Interior ("DOI"), as represented by the National Park Service, United States Fish and Wildlife Service, Bureau of Indian Affairs, and Bureau of Land Management; the National Oceanic and Atmospheric Administration ("NOAA"), on behalf of the United States Department of Commerce; the United States Department of Defense ("DOD"); the State of Louisiana's Coastal Protection and Restoration Authority, Oil Spill Coordinator's Office, Department of Environmental Quality, Department of Wildlife and Fisheries and Department of Natural Resources; the State of Mississippi's Department of Environmental Quality; the State of Alabama's Department of Conservation and Natural Resources and Geological Survey of Alabama; the State of Florida's Department of Environmental Protection; and the State of Texas' Parks and Wildlife Department, General Land Office and Commission on Environmental Quality, (collectively, the "Trustees"). In addition to acting as trustees for this Incident(s) under OPA, the States of Louisiana, Mississippi, Alabama, Florida and Texas are also acting pursuant to their applicable state laws and authorities, including the Louisiana Oil Spill Prevention and Response Act of 1991, La. R.S. 30:2451 et seq., and accompanying regulations, La. Admin. Code 43:101 et seq.; the Texas Oil Spill Prevention and Response Act, Tex. Nat. Res. Code, Chapter 40, Section 376.011 et seq., Fla. Statutes, and Section 403.161, Fla. Statutes; the Mississippi Air and Water Pollution Control Law, Miss. Code Ann. §§ 49-17-1 through 49-17-43; and Alabama Code §§ 9-2-1 et seq. and 9-4-1 et seq.;.

The Responsible Parties ("RPs") identified for this Incident(s) thus far are BP Exploration and Production, Inc. ("BP"); Transocean Holdings Inc. ("Transocean"); Triton Asset Leasing GmbH ("Triton"); Transocean Offshore Deepwater Drilling Inc. ("Transocean Offshore"); Transocean Deepwater Inc. ("Transocean Deepwater"); Anadarko Petroleum ("Anadarko"); Anadarko E&P Company LP ("Anadarko E&P"); and MOEX Offshore 2007 LLC ("MOEX"). Pursuant to 15 C.F.R. 990.14(c), concurrent with the publication of this Notice, the Trustees are inviting the RPs identified above to participate in a Natural Resource Damage Assessment ("NRDA"). The Trustees have coordinated with BP representatives on activities undertaken to date as part of the NRDA process.

The Trustees began the Preassessment Phase of the NRDA in accordance with 15 C.F.R. § 990.40, to determine if they had jurisdiction to pursue restoration under OPA, and, if so, whether it was appropriate to do so. During the Preassessment Phase, the Trustees collected and analyzed and are continuing to collect and analyze the following: (1) data reasonably expected to be necessary to make a determination of jurisdiction or a determination to conduct restoration planning, (2) ephemeral data, and (3) information needed to design or implement anticipated emergency restoration and assessment activities as part of the Restoration Planning Phase.

Under the NRDA regulations applicable to OPA, 15 C.F.R. Part 990 ("NRDA regulations"), the Trustees prepare and issue a Notice of Intent to Conduct Restoration Planning ("Notice") if they determine conditions that confirm the jurisdiction of the Trustees and the appropriateness of pursuing restoration and natural resources have been met.

Pursuant to 15 C.F.R. § 990.44, this Notice announces that the Trustees have determined to proceed with restoration planning to fully evaluate, assess, quantify and develop plans for restoring, replacing or acquiring the equivalent of natural resources injured and losses resulting from the Deepwater Horizon Incident or Incidents. The restoration planning process will include collection of information that the Trustees determine is appropriate for identifying and quantifying the injuries and losses of natural resources, including resource services, and to determine the need for, and type and scale of restoration actions.

SUPPLEMENTARY INFORMATION:

Determination of Jurisdiction

The Trustees have made the following findings pursuant to 15 C.F.R. § 990.41:

1. The explosion on the mobile offshore drilling unit Deepwater Horizon on April 20, 2010, and other associated occurrences, resulted in discharges of oil into and upon navigable waters of the United States, including the Gulf of Mexico, as well as adjoining shorelines, all of which constitute an "Incident" or "Incidents" within the meaning of 15 C.F.R. § 930.30.

2. The ongoing discharges are not permitted pursuant to federal, state, or local law; are not from a public vessel; and are not from an onshore facility subject to the Trans-Alaska Pipeline Authority Act, 43 U.S.C. §§ 1651 et seq.

3. Natural resources under the trusteeship of the Trustees have been and continue to be injured and/or threatened as a result of discharged oil and associated removal efforts. The discharged oil is harmful to natural resources exposed to the oil, including aquatic organisms, birds, wildlife, vegetation, and habitats. Discharged oil and the response activities to address the discharges of oil have resulted in adverse effects on natural resources in and around the Gulf of Mexico and along its adjoining shorelines, and impaired services that those resources provide. The full extent of potential injuries is currently unknown, and may not be known for many years; however, the natural resources and resource services that have been impacted due to the discharged oil include but are not limited to the following:

Over 1,000 miles of shoreline habitats, including salt marshes, sandy beaches, and mangroves.

A variety of wildlife, including birds, sea turtles, and marine mammals. As of June 29, 2010:

Over 1,900 oiled birds captured and over 1,850 visibly oiled dead birds collected.

Over 400 oiled sea turtles captured and 17 visibly oiled dead sea turtles collected.

5 visibly oiled dead marine mammals captured.

Lost human use opportunities associated with various natural resources in the Gulf region, including fishing, swimming, beach-going and viewing of birds and wildlife.

Waters of the Gulf of Mexico and adjoining coastal states.

Various other biota, including benthic communities and fish.

Water column habitat.

Accordingly, the Trustees have determined they have jurisdiction to pursue restoration under the OPA.

Determination to Conduct Restoration Planning

Pursuant to 15 C.F.R. § 990.42(a), the Trustees determined that:

1. Observations and data collected pursuant to 15 C.F.R. § 990.43 demonstrate that injuries to natural resources and the services they provide have resulted from the Incident or Incidents; however, the nature and extent of such injuries has not been fully determined at this time. The Trustees have identified numerous categories of impacted and potentially impacted resources, including fish, shellfish, marine mammals, turtles, birds and other sensitive resources as well as their habitats, such as wetlands, marshes, beaches, mudflats, bottom sediments, corals and the water column as well as effects to human use resulting from the impacts on the resources. The Trustees have been conducting and continue to conduct, activities to evaluate injuries and potential injuries within these categories. More information on these resource categories will be available in the Administrative Record ("AR," as defined below), including assessment work plans developed jointly by the Trustees and BP and information gathered during the preassessment. The full nature and extent of injuries will be determined during the injury assessment phase of restoration planning.

2. Response actions employed for this spill include in situ burning, dispersant applications, containment and skimming of oil, and removal operations. These response actions have not addressed and are not expected to address all injuries resulting from the discharges of oil. Although response actions were initiated soon after the explosion and continue to date, they have been unable to prevent injuries to many natural resources, and the size, nature and location of the discharges have prevented recovery of most of the oil. In addition, some of these response actions have caused or are likely to cause injuries to natural resources and the services they provide, including destruction of sensitive marshes, beaches, and other habitats and impacts to human uses of resources. While injured natural resources may eventually naturally recover to the condition they would have reached had the discharges not occurred, interim losses have occurred, or are likely to occur in the future, and these will continue until baseline conditions are achieved. In addition, there have been and will continue to be losses of and diminution of human uses of the resources resulting from the impacts to the natural resources and from the response actions themselves.

3. Feasible restoration actions exist to address the natural resource injuries and losses, including lost human uses, resulting from the discharges of oil. Assessment procedures are available to scale the appropriate amount of restoration required to offset these ecological and human use service losses. During the restoration planning phase, the Trustees will evaluate potential projects, determine the scale of restoration actions needed to make the environment and the public whole, and release a draft Restoration Plan for public review and comment.

Based upon these determinations, the Trustees intend to proceed with restoration planning for the Incident or Incidents.

Administrative Record

The United States Department of the Interior, acting on behalf of the Trustees, is in the process of establishing and opening an Administrative Record ("AR") in compliance with 15 C.F.R. § 990.45 and applicable state authorities. The AR will be publicly accessible and include documents considered by the Trustees during the preassessment, assessment, and restoration planning phases of the NRDA performed in connection with the Incident or Incidents. The AR will be augmented with additional information over the course of the NRDA process. The availability of the AR will be addressed in one or more future notices and announcements.

State-specific ARs may also be kept and will be made available by state trustees in their normal course of business.

Opportunity to Comment

The Trustees invite the public to participate in restoration planning for this Incident or Incidents in accordance with 15 C.F.R. § 990.14(d) and state authorities. The Trustees will be providing substantial opportunities for public involvement in the restoration planning for this Incident or Incidents. The opportunities for public involvement will be addressed in future notices and announcements.

NOTICE OF INTENT TO CONDUCT RESTORATION PLANNING (PURSUANT TO 15 C.F.R. SECTION 990.44) – DISCHARGE OF OIL FROM THE DEEPWATER HORIZON MOBILE OFFSHORE DRILLING UNIT AND THE SUBSEA MACONDO WELL INTO THE GULF OF MEXICO, APRIL 20, 2010

ACTION: Notice of availability of the Notice of Intent (NOI) to Conduct Restoration Planning for LOSCO NRDA case file #LA2010 0421 0800 [Deepwater Horizon].

Agencies: Louisiana Coastal Protection and Restoration Authority; Louisiana Oil Spill Coordinator's Office, Department of Public Safety and Corrections (LOSCO); Louisiana Department of Environmental Quality; Louisiana Department of Natural Resources; and, Louisiana Department of Wildlife and Fisheries (referred to herein as the Trustees).

Interested members of the public are invited to request a copy of the Final NOI from Amanda Walker at the address provided below.

FOR FURTHER INFORMATION: Contact Amanda Walker at (225) 925-7212 or by email at amanda.walker3@la.gov. To view the Final NOI via the internet, please visit www.losco.state.la.us and look under News Flash for Deepwater Horizon Oil Spill or http://losco-dwh.com/ and look under News & Updates.

ADDRESS: Request for copies of the Final NOI should be sent to:

Notice of Intent to Conduct Restoration Planning (pursuant to 15 C.F.R. Section 990.44) - DISCHARGE OF OIL FROM THE DEEPWATER HORIZON MOBILE OFFSHORE DRILLING UNIT AND THE SUBSEA MACONDO WELL INTO THE GULF OF MEXICO, APRIL 20, 2010

SUMMARY: On or about April 20, 2010, the mobile offshore drilling unit Deepwater Horizon experienced a significant explosion, fire and subsequent sinking in the Gulf of Mexico, resulting in discharges of oil and other substances from the rig and from the wellhead on the seabed into the Gulf of Mexico (referred to as the "Deepwater Horizon Incident or Incidents"). These discharges are estimated to have been in excess of thousands of barrels of oil per day and continue, along with associated removal activities, to adversely affect and threaten natural resources within the jurisdictions of the United States and the States of Louisiana, Mississippi, Alabama, Florida, and Texas.

Pursuant to section 1006 of the Oil Pollution Act ("OPA"), 33 U.S.C. §§ 2701, et seq., federal and state trustees for natural resources are authorized to (1) assess natural resource injuries resulting from a discharge of oil or the substantial threat of a discharge and response activities, and (2) develop and implement a plan for restoration of such injured resources. The federal trustees are designated pursuant to the
