Houston, TX 77079

RE: (1) 2010 Review of Response and NRDA Data Collection and 2011 Data Collection and Analysis Activities; (2) Public Data Repository/Information Management System

Dear Robin:

I am writing on behalf of the MC252 Trustee Council in response to your letters (referenced above) of January 13, 2011. The designated natural resource trustees have referred to the Trustee Council your request for two meetings in February to discuss the topics addressed in your letters.

The Trustee Council welcomes the opportunity to discuss both topics; however, due to logistical considerations, we propose a meeting with you on Wednesday, April 27<sup>th</sup> that is part of a larger Trustee Council meeting. We will contact you when a meeting location in New Orleans is finalized. The Trustees propose to have you discuss your ideas from 9-12AM. Thank you for your consideration of this alternative timetable and approach.

Additionally, the Trustee Council requests that future correspondence from BP related to the Deepwater Horizon Natural Resource Damage Assessment be directed to the entire Trustee Council simultaneously. The notification list for the Trustee Council and its attorneys is provided below. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert Haddad".

Robert Haddad, Ph.D.  
Chief, Assessment & Restoration Division  
National Oceanic & Atmospheric Administration
